50X1-HUM

1. Between 14-16 August 1953 a bucket dredger was operating at the port entrance of Constanta. The mud was carried by two lighters; work continued round the clock.
2. The depth between the West and East piers is to be increased to 35 feet. At present the maximum permissible draught is 29 feet but only for ships docking in oil basins. For the remainder of the port the maximum permissible draught is 26-27 feet.
